Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) **9-16**, drawn to a conductor roll.

Group II, claim(s) **17-19**, drawn to an electroplating system containing a conductor roll.

Group III, claim(s) **20-28**, drawn to a method of making a conductor roll for electroplating steel sheets.

Group IV, claim(s) **29 and 30**, drawn to a method of using a conductor roll.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The conductor roll recited in Group I is a linking claim of Groups II-IV. However, Group I does not require components of an electroplating system (Group II), steps of a method of making (Group III) and/or steps of a method of using (Group IV).

The electroplating system of Group II does not require steps of a method of making (Group III) and/or steps of a method of using (Group IV).

The method of making of Group III does not require an electroplating system (Group II) and/or steps of a method of using (Group IV).

The method of using of Group IV does not require an electroplating system (Group II) and/or steps of a method of making (Group III).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
